Quality of Leadership & Management

Bower Park Academy Health & Safety Policy

Status of this document

This Policy details the local arrangements for managing health & safety at Bower Park School. It is a subordinate Policy to the London Borough of Havering's Corporate Health & Safety Policy, and should therefore be read in conjunction with this and the Corporate Safety Management System.

Statement of intent

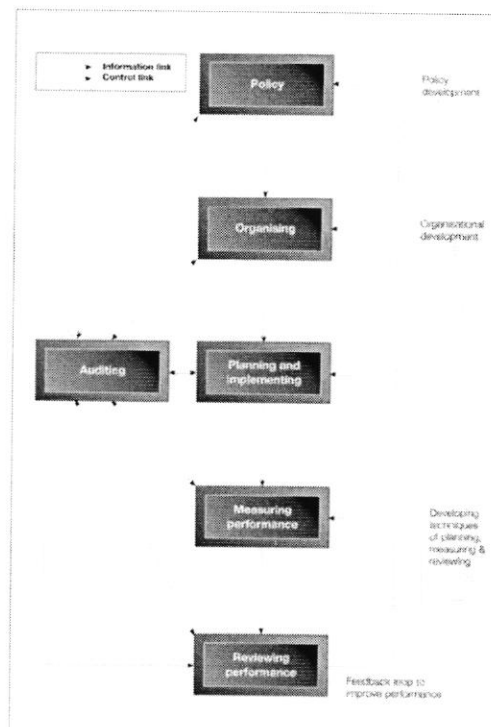

Bower Park School is committed to ensuring high standards of health & safety in all its activities. It aims to not just comply with the minimum health & safety legislative requirements but, the spirit of the law as well. The School values its employees and will endeavour to ensure that their health, safety and welfare, and those of any visitors to the site (including pupils), is protected so far as is reasonably practicable. It recognises the economic and social benefits which are derived from the implementation of an effective health & safety management system. In order to derive these benefits the School's Governing Body and Senior Management Team commit to providing the necessary leadership and resources to implement, maintain and continuously improve the School's safety management system.

Safety Management System

The School's Safety Management System is based on the HSE's model in HSG 65 "Successful Health & Safety Management".

Organisation

Governing Body

The Governing Body is responsible for ensuring that:

- It considers the health & safety implications of its decisions;
- Adequate resources are allocated to health & safety;
- Health & safety standards are maintained by monitoring this Policy's implementation;
- This Policy is kept up to date by reviewing it annually.

All Employees

All employees have a legal duty to take care of their own health and safety and the safety of others affected by their acts and omissions, and to co-operate with the School to enable it to carry out its responsibilities. They must not interfere or misuse anything provided to ensure people's health and safety.

They also have a responsibility to report hazards and unsafe practices which they become aware of using the School's hazard reporting system. The employee should take all reasonable steps to make the situation safe (without putting themselves at risk) until it can be dealt with.

It is the responsibility of all employees to comply with the School's Health and Safety Policy and associated arrangements, and to co-operate with the School on its implementation.

Employees must ensure that they are fully aware of their own health & safety responsibilities, these will be detailed in this document and in local/departmental procedures.

Employees are reminded that failure to comply with health and safety requirements could lead to disciplinary action.

Note for female staff: The School has duties to assess and control the risks to pregnant workers and nursing mothers. In order to be able to fulfil this duty employees need to inform their line manager about their pregnancy at the earliest opportunity. The School recognises that some prospective parents may not wish for information on their pregnancy to become public. The School will endeavour to fulfil these wishes, but will always put the interests of the health of the employee and their unborn child above preventing disclosure.

Headteacher

The Headteacher is responsible for ensuring that:

- The health & safety decisions of the Director of Children's Services are complied with;
- Systems are established and maintained within the School to ensure that health & safety is effectively managed;
- A Health & Safety Coordinator has been appointed;
- Sufficient resources are allocated to enable health and safety to be successfully managed;
