Dear Parents/Carers

WET WEATHER

I wanted to clarify the message that was sent out earlier this week about arrangements for wet or extreme weather.

We recommend that students bring umbrellas and coats on days when it is raining, or if rain is forecast for that day. This is not just for use at break and lunch, but for on the way to and from school and whilst students are waiting outside before they are brought into the school building in the morning. However, in extreme weather conditions, there will be space made available in school for students:-

Year 7	Canteen during break and lunch 1
Year 8	Gymnasium during break and lunch 1
Year 9	Gymnasium during break and lunch 2
Year 10	South Hall during break and lunch 2
Year 11	Canteen during break and lunch 2

We have been reviewing how the systems have been working and we will be moving Year 7 from the playground they are currently in to the picnic area for break and lunch. Year 11 have already been moved into the picnic area for break and lunch.

I hope that this addresses any concerns you may have, but please contact the school office if you still have any questions.

Yours faithfully

Shahid Deen
Principal
